Knowledge Base: Cymbal Bank Managed Portfolio Services

Cymbal Bank's Managed Portfolio Services (MPS) offers a hands-free, professionally managed investment route. MPS eliminates the need to research individual securities, monitor market shifts, and manually rebalance your holdings.

With a low minimum entry point of **$500**, these portfolios allow you to instantly diversify your cash across a broad spectrum of global equity and fixed-income mutual funds.

The Three Managed Portfolios

Cymbal Bank offers three distinct portfolios structured to align with different investor profiles, time horizons, and risk tolerances.

1. Cymbal Bank Managed Income Portfolio

- **Primary Focus:** Generating a high level of regular income with a secondary focus on modest capital growth.
- **Strategic Asset Mix: 75% Fixed Income / 25% Equity**
- **Target Asset Allocations:**
    - U.S. Fixed Income: ~44.5%
    - Global Fixed Income: ~30.5%
    - U.S. Equities: ~16.0%
    - International Equities: ~7.0%
    - Emerging Markets Equities: ~2.0%
- **Risk Profile:** Low investment risk.
- **Best Suited For:** Short- to medium-term investors looking to preserve their capital and establish a reliable stream of USD income.

2. Cymbal Bank Managed Balanced Portfolio

- **Primary Focus:** Achieving a balance of regular income and long-term capital growth.
- **Strategic Asset Mix: 40% Fixed Income / 60% Equity**
- **Target Asset Allocations:**
    - U.S. Equities: ~40.0%
    - Global Fixed Income: ~40.0%
    - International Equities: ~15.0%
    - Emerging Markets Equities: ~3.5%
- **Risk Profile:** Low-to-medium investment risk.

- **Best Suited For:** Medium- to long-term investors seeking a balanced portfolio that captures market growth while maintaining fixed-income stabilization.

3. Cymbal Bank Managed Growth Portfolio

- **Primary Focus:** Maximizing long-term capital growth with a secondary focus on modest income generation.
- **Strategic Asset Mix: 10% Fixed Income / 90% Equity**
- **Target Asset Allocations:**
  - U.S. Equities: ~50.0%
  - International Equities: ~25.0%
  - Global Fixed Income: ~10.0%
  - Emerging Markets Equities: ~15.0%
- **Risk Profile:** Medium investment risk.
- **Best Suited For:** Long-term investors who can tolerate market fluctuations in pursuit of maximum capital appreciation.

Core Feature: Built-In Currency Hedging

Investing in global mutual funds can expose your portfolio to wild currency fluctuations (e.g., the Euro or Yen moving against the U.S. Dollar). To safeguard your purchasing power:

- **How it Works:** The underlying mutual funds in these portfolios hold assets from around the globe. Cymbal Bank's portfolio advisors employ currency hedging strategies (using derivatives like forward and spot contracts).
- **The Benefit:** This strategy actively minimizes exposure to non-U.S. dollar currencies. It ensures that your investments are insulated against non-USD currency volatility, protecting the value of your portfolio relative to your base currency of U.S. dollars.

Decision Matrix: How to Choose Your Portfolio

To choose the optimal portfolio for your $100,000 USD diversification strategy, evaluate your goals against these three pillars:

Selection Criteria	Managed Income Portfolio	Managed Balanced Portfolio	Managed Growth Portfolio

Your Primary Goal	Capital preservation and cash flow	Balanced growth and steady income	Aggressive long-term growth
Time Horizon	Short to Medium (1 to 5 years)	Medium to Long (5+ years)	Long Term (7 to 10+ years)
Risk Tolerance	**Low** (Prefers minimal volatility)	**Low to Medium** (Accepts minor fluctuations)	**Medium** (Accepts moderate market drops)
Key Advantage	High fixed-income cushion	Balanced asset split across major markets	Maximum equity exposure to beat inflation

Account Eligibility & Buying Options

- **Minimum Investment:**
    - **Initial Investment:** $500 USD minimum.
    - **Subsequent Purchases:** $25 USD minimum.
- **How to Purchase:** You can buy these portfolios directly by speaking with a Cymbal Bank Representative at **1-800-555-5555** or through your primary financial advisor.
